

Hydraulic battery-operated pump B68M-P18 - 729Bar

Item number:	B68M-P18
Product weight (kg):	10.8395 kg
Packing unit:	1

The new B68M-P18 hydraulic battery pump is very light and compact in construction, making it ideal for use with various tools where no mains power is available.

In conjunction with the powerful 18.0V - 5.2 Ah Li-Ion battery and the new hydraulic system, this results in a higher working speed of the tool.

The new hand held remote control is equipped with LED lights and an OLED display showing important operating parameters. Thanks to the Smart mode, when the motor is automatically switched off and the start button is released, the oil returns to the pump tank automatically. The tool piston then returns automatically.

TECHNICAL CHARACTERISTICS

Max. operating pressure (bar):	729
Battery voltage (V):	18
Battery capacity (Ah):	5.2
Battery type:	Li-Ion
LxHxW (mm):	364 x 168 x 236
Weight (kg):	5.6 (tool)
Manufacturer:	Cembre S.p.A.

Scope of delivery

- Hand held remote control, equipped with LED illumination and OLED display.- 2 m high-pressure hose, with rotatable Q14-F connection on the pump and oil-loss-free 3/8" NPT quick couplings.- 2x 18.0 V - 5.2 Ah Li-Ion batteries.- Canvas bag, suitable for the storage of the tool and accessories.- Battery charger.
