

Batterie safety cutting device B68RC3-96

Type RC3, incl. tête de coupe max. Ø 95mm

Item number: B68RC3-96

Packing unit: 1

The new B68M-P18-KV-RC3 hydraulic battery pump is very light and compact in construction, making it ideal for use where no mains power is available. The remote control allows the user to operate the device from a safe distance. In conjunction with the powerful 18.0V - 8.0 Ah Li-Ion battery and the new hydraulic system, this results in a higher working speed of the tool. The new radio remote control is equipped with LED lights and a buzzer, which signals the operator that the cutting process has successfully completed.

Thanks to the Smart mode, when the motor is automatically switched off and the start button is released, the oil returns to the pump tank automatically. The tool piston then returns automatically.

TECHNICAL CHARACTERISTICS

Max. operating pressure (bar):	729
Weight (kg):	5.6 (tool) 9.5 (cutting head)
LxHxW (mm):	364 x 236 x 186
Max. diameter (mm):	95
Manufacturer:	Cembre S.p.A.

Scope of delivery
