

Hydraulic battery-operated pump B70M-P36 - 700Bar

Item number:	B70M-P36
Product weight (kg):	17.11 kg
Packing unit:	1

The hydraulic battery pump B70M-P36 has a 36V – 8.0 Ah battery and operates with an operating pressure of 700 bar. The pump can be operated with a hand or foot pedal remote control. They are equipped with a manual button for operation and pressure relief (electronically locked for safety reasons when the hand remote control is used). With just one battery charge up to 90 cuts AE-KEBY 3 x 150 mm can be performed.

TECHNICAL CHARACTERISTICS

Max. operating pressure (bar):	700
Battery voltage:	36V
Battery capacity:	8.0 Ah
Battery type:	Li-Ion
LxHxW:	405 x 161 x 327
Weight:	10.0 (tool)
Manufacturer:	Cembre S.p.A.
