

CEMO Battery charging cabinet Basic 8/20, 400 V with feet

Item number: CEMO-12049CH
 Product weight (kg): 268 kg
 Packing unit: 1

Fire- and explosion-resistant safety cabinet, specifically designed for the storage and charging of lithium-ion batteries.

Basic model, certified in accordance with VDMA Standard Sheet 24994:2024-08, Chapter 4.3.

Safe storage and charging of lithium-ion batteries up to 12 kWh – ideal for applications with high energy requirements.

Maximum safety in the event of a fire – withstands a battery fire and ensures no escape of flames or sparks.

Efficient layout and clear compartmentalisation through two areas that can be opened independently of one another.

Patent-protected LockEX pressure relief system.

Fire-retardant storage levels – prevent the spread of fire between individual battery modules.

User-friendly and cost-effective – the cost-efficient solution that focuses on the essentials.

TECHNICAL CHARACTERISTICS

Power supply:	400
Connection type:	CEE 16 A
Maximum electrical power (W):	2 x 3500
Current (A):	16
Number of sockets:	4x 9
Permissible total energy (Wh):	12640
Permissible energy per storage level (Wh):	1580
Smoke detector:	Battery-powered
Temperature measurement:	Thermal fuse
Display:	No
Warning signal:	Acoustic
Alarm forwarding:	No
Potential-free contact:	No
Storage levels:	8
Number of shelves / special cushions:	6
Stackable:	No
Feet/Castors:	With stacking feet
Under-rideable:	Yes
Certificate acc. to VDMA 24994:2024-08:	VDMA 24994 44 780 23136701
Manufacturer:	CEMO

DIMENSIONS

LxWxH (mm):	800 x 660 x 2130
