

# CEMO Battery charging cabinet Premium 8/5, 230 V with feet

Item number:	CEMO-12111CH
Product weight (kg):	89 kg
Packing unit:	1

**Fire- and explosion-resistant safety cabinet**, specifically designed for the storage and charging of lithium-ion batteries.

**Premium version**, certified in accordance with VDMA Standard Sheet 24994:2024-08, Chapter 4.3.

**Safe storage and charging** of lithium-ion batteries up to 3 kWh – ideal for applications with high energy requirements.

**Maximum safety in the event of a fire** – withstands a battery fire and ensures no escape of flames or sparks.

**Modular system** – can be combined and stacked with other LockEX series for maximum flexibility and expandability.

**Patent-protected LockEX** pressure relief system.

**Fire-retardant storage levels** – prevent the spread of fire between individual battery modules.

**Connection to central fire alarm system (CFA)** – for seamless integration into existing safety infrastructure.

## TECHNICAL CHARACTERISTICS

Power supply:	230
Connection type:	Typ 13
Maximum electrical power (W):	2300
Current (A):	10
Number of sockets:	1x 9
Permissible total energy (Wh):	3021.2
Permissible energy per storage level (Wh):	1510,6
Smoke detector:	Electric
Temperature measurement:	Thermal fuse
Display:	No
Warning signal:	Acoustic
Alarm forwarding:	No
Potential-free contact:	Yes
Storage levels:	2
Number of shelves / special cushions:	1
Stackable:	3 pieces stacked on top of each other
Feet/Castors:	With stacking feet
Under-rideable:	Yes
Certificate acc. to VDMA 24994:2024-08:	VDMA 24994 44 780 23136701
Manufacturer:	CEMO

## DIMENSIONS

LxWxH (mm):	800 x 660 x 620
