

CEMO Battery charging cabinet Premium Plus 8/10, 400 V with castors

Item number:	CEMO-12125CH
Product weight (kg):	153 kg
Packing unit:	1

Fire- and explosion-resistant safety cabinet, specifically designed for the storage and charging of lithium-ion batteries.

Premium Plus model, certified in accordance with VDMA Standard Sheet 24994:2024-08, Chapter 4.3.

Safe storage and charging of lithium-ion batteries up to 6 kWh – ideal for applications with high energy requirements.

Maximum safety in the event of a fire – withstands a battery fire and ensures no escape of flames or sparks.

Patent-protected LockEX pressure relief system.

Fire-retardant storage levels – prevent the spread of fire between individual battery modules.

Connection to central fire alarm system (BMA) – for seamless integration into existing safety infrastructure.

Flexibly networkable system – communication via either Wi-Fi or SMS for maximum reach, even without an internet connection.

TECHNICAL CHARACTERISTICS

Power supply:	400
Connection type:	CEE 16 A
Maximum electrical power (W):	2 x 3500
Current (A):	16
Number of sockets:	2x 9
Permissible total energy (Wh):	6320
Permissible energy per storage level (Wh):	1580
Smoke detector:	Electric
Temperature measurement:	Temperature sensor
Display:	Yes
Warning signal:	Acoustic
Alarm forwarding:	Yes
Potential-free contact:	Yes
Storage levels:	4
Number of shelves / special cushions:	3
Stackable:	2 pieces stacked on top of each other
Feet/Castors:	With castors
Under-rideable:	Yes
Certificate acc. to VDMA 24994:2024-08:	VDMA 24994 44 780 23136701
Manufacturer:	CEMO

DIMENSIONS

LxWxH (mm):	890 x 660 x 1150
