

# CVB-039 – Canvas carrying bag for MG4 printer

For on the go

Item number:	GM-CVB-039
Packing unit:	1

The CEMBRE CVB-039 is a robust and lightweight carrying bag designed for the safe storage and transport of the CEMBRE MG4 thermal transfer printer. It has been specifically developed for professional use in workshop, production and service environments, enabling comfortable and protected transport of the printer between different work locations. Thanks to its durable, soft canvas material, the CVB-039 reliably protects the MG4 against dust, dirt and light mechanical impacts, while keeping the printer easily accessible. This makes it particularly suitable for mobile use in service and installation applications. With its low weight and practical dimensions, the CVB-039 is ideal for mobile applications, training sessions and frequent workstation changes. It ensures safe handling and is the perfect accessory for users who require a flexible and professional mobile solution for the CEMBRE MG4.
