

# Hydraulic Accu-Press KIT-B1300TEPF

for the installation of rail contacts for M10 bolts,  
pressing, cutting, riveting and bolting

Item number: KIT-B1300TEPF  
Packing unit: 1

## Components:

- B1300TEPF hydraulic battery-powered press with 900 mm high-pressure hose and RHTEPF riveting head
- 2 OG10.5 spreader mandrels
- Gauge CAL135.145 for checking the bore and for fitting the expansion mandrel
- RH50 hydraulic crimping head, including MK-16-50 crimping insert for 70 mm² DIN cable lugs
- Hydraulic cutting head TC025
- Torque wrench QL50N 10–50 Nm, including long torque socket SW 17 mm SSE-17-3/8L
- Ratchet ring spanner, SW 10/13 and 17/19, RRS-1013-1719
- Hand-operated countersink with handle HG-KGS and countersink KGS-16.5mm
- Plastic case VAL-M-H1
- Spare Li-ion battery, 18V, 5.2Ah
- Charger
- Carrying strap

## TECHNICAL CHARACTERISTICS

|                        |              |
|------------------------|--------------|
| Crimping force [kN]:   | 50           |
| Crimping range [mm²]:  | 6–300        |
| Battery voltage [V]:   | 18           |
| Cutting range [mm]:    | max.25       |
| Battery capacity [Ah]: | 5.2          |
| Battery type:          | Li-Ion       |
| Weight [kg]:           | 5.7          |
| Manufacturer:          | Cembre Group |
