

# Stripping and crimping machine MC-40-1

Type MC, 0.25 - 4mm<sup>2</sup>

Item number:	MC-40-1
Product weight (kg):	29.3 kg
Packing unit:	1

The electro-pneumatically controlled stripping and crimping machine MC-40-1 are intended for the rational processing of loose wire end ferrules with plastic collars. The stripping and crimping is performed in one operation.

The MC-40-1 is equipped with crimp tools that have cross-sections 0.5 / 0.75 / 1.0 / 1.5 mm<sup>2</sup> with 6 - 12 mm sleeve length. There are corresponding extension sets for processing the cross-sections of 0.25 / 0.34 / 2.5 and 4 mm<sup>2</sup>.

## TECHNICAL CHARACTERISTICS

Cross-section range:	0.5 - 1.5 mm <sup>2</sup> / AWG 24-16
Cycle time:	1.0
Crimp length:	6 - 12**
Weight:	29.0
Stripping blades:	V-shape
Power supply:	230V/50HZ (115V/60HZ)
LxHxW:	550 x 412 x 250

· \*\* Extension set 0.25 (0.25 – 0.34 mm<sup>2</sup>), Extension set 2.5 (2.5mm<sup>2</sup>), Extension set 4.0 (4mm<sup>2</sup>; only 10mm)
