

Rail cutter RC-300

Type RC

Item number:	RC-300
Product weight (kg):	8.6 kg
Packing unit:	1

For fast and accurate cutting of rails DIN EN 60715. The RC-300 is used to cut DIN rails (top-hat rails) to size TH 35-15, TH 35-7.5 and TH 15-5.5. Without much effort, the RC-300 cuts the desired lengths quickly and burr-free. With the 1 m long measuring rail, the mounting rails are cut to length with millimetre precision. The angles of the cut edges are accurate and require no reworking. The workplace remains clean and without shavings.

TECHNICAL CHARACTERISTICS

Weight:	8.3
LxHxW:	1090 x 150 x 790
