

Hydraulic overhead line cutter head BT-TFC

Item number: RH-TFC
Packing unit: 1

The hydraulic overhead line cutter head BT-TFC is designed for cutting the overhead line of differing profiles up to a maximum diameter of 65 mm easily and effectively.

The special cut and the special geometry of the cutting blades ensure a «straight cut». The cutting blades are made of particularly high-quality material. The tool is equipped with a quick-release, oil-loss-free coupling that allows it to be connected to a hydraulic pump with a maximum operating pressure of 700 bar.

TECHNICAL CHARACTERISTICS

Weight:	3.1 (tool) 0.93 (case)
LxW:	196 x 159
Max. diameter:	65
Manufacturer:	Cembre S.p.A.

Scope of delivery

- Incl. a stable plastic case VAL-P15 (315 x 300 x 95 mm)
