

# CEMBRE Rolly3000 thermal transfer printer

Item number:	Rolly-3000
Product weight (kg):	10 kg
Packing unit:	1

**ROLLY3000** is a professional thermal printer designed to ensure maximum reliability, low noise operation, and ease of use, even in high-productivity industrial environments. Thanks to its robust metal construction, it is perfectly suited for installation in production departments and demanding work environments. Equipped with USB and Ethernet interfaces, as well as a Wi-Fi connection via an included mini USB dongle (2.4 GHz 802.11b/g/n), the ROLLY3000 ensures flexible connectivity to meet all requirements. The printer is compatible with the GENIUSPRO labeling software and is supplied complete with: - Power and connection cable - Printing software with universal driver - USB Wi-Fi dongle - Black printing ribbon included Designed for optimal printing on heat-shrink material, it is ideal for industrial labels on ladder-style roll material and continuous rolls.

## TECHNICAL CHARACTERISTICS

<b>Operating principle:</b>	thermal transfer printer
<b>Max. printable area (mm):</b>	140 x 110
<b>Interfaces:</b>	Ethernet 10 / 100 Base-T Wi-Fi WLAN 802.11b/g/n 2.4 GHz USB 2.0 Hi-Speed
<b>Weight (kg):</b>	10.0
<b>Manufacturer:</b>	Cembre
<b>Power supply:</b>	115 - 240V
<b>Language selection:</b>	DE / EN / FR / IT
<b>LxHxW (mm):</b>	480x252x288

## SCOPE OF DELIVERY

Ribbon: TTPS-060 Premium 842213  
 Empty ribbon spool: 991654  
 WLAN USB: ROLLY-WUS2.4  
 · Software: FD-GeniusPro USB stick  
 USB cable  
 Mains cable incl. power supply unit  
 Cover
