

Cable scissors SC5X

Type SCX, for cable up to max. 50mm²

Item number:	SC5X
Product weight (kg):	0.121 kg
Packing unit:	1

High-quality scissors with blades made of resistant and durable steel. The pivot bolt with lock and the teeth on the blades, allow a perfect and consistent alignment of the blades for first-class cutting and stripping. Due to the high degree of hardness of the blades (58 HRC) as well as their special recess, cables up to 50 mm² can be cut. The scissors are delivered with a rotatable protective cover (with belt strap).
