

# Heavy-duty transport case for printers

Item number: VAL-MG-HD  
 Packing unit: 1

The CEMBRE **VAL-MG-HD** is a stable and **heavy-duty transport case** designed for the safe storage and professional transport of CEMBRE thermal transfer printers, such as the MG4. It has been specifically developed for demanding workshop, production and service environments, ensuring reliable protection of the device during transport. Thanks to its robust, impact-resistant construction, the VAL-MG-HD reliably protects the printer against shocks, vibrations and external mechanical influences. Especially in cases of frequent relocation or air freight transport, the case provides a high level of safety for the device. With its solid design and printer-specific dimensions, the VAL-MG-HD is ideal for mobile applications, international transport and service operations under demanding conditions. It significantly enhances transport safety and is the optimal accessory for users who require reliable, professional and worldwide deployment of their CEMBRE printer.

## TECHNICAL CHARACTERISTICS

Suitable for:	CEMBRE MG4 thermal transfer printer in card format
Material:	plastic
Colour:	Black
Weight (kg):	7.5
Manufacturer:	Cembre
LxHxW (mm):	528 × 687 × 366
